JEKYLL AND HYDE DEFENSE.

Somerville, N. J., May 15.—That George Wood had a dual personality, and that his better nature knows nothing of anything that may be done under the influence of the evil spell, will be the defense made by Wood's attorney when he is put on trial here today for the murder of George Williams last winter. It is believed that this will be the first time this novel defense has been offered in a murder case in the history of criminology.

Williams, a store keeper in the village of Watchung, N. J., was found shot to death in his sleigh near his home last February. He had started from the village to drive a strange man to a farm house some distance away, and suspicion at once rested on the stranger. Wood was arrested and identified as the man who had accompanied Williams and was charged with the murder. At the time of his arrest he asserted that for three days his mind had been a blank and that he remembered nothing of that period.

depict the hopelessness and dejection wife is incapable of becoming a mother? ment of the distinctly feminine organs. Many of the common ailments known as "female troubles" cause it. Dr. Pierce's Pavorite Prescription overcomes barrenness by stamping out diseases of women, and by healing and curing ulceration. It tones up the system, stops drains, and restores strength. During gestation it modifies morning sickness, gives elasticity to the overstrained parts concerned, makes the hour of baby's coming short and almost painless, and gives wonderful recuperative power to the patient. By making the mother strong and cheerful, it makes the little one healthy, vigorous and good natured. Insist upon the medicine dealer giving you Dr. Pierce's Fa-vorite Prescription when you ask for it. Substitutes are often dangerous.

Mrs. James W. Blacker, of 620 Catherine St., Syracuse, N. Y., writes: "Your medicines have done wonders for me. For years my health was very poor; I had four miscarriages, but since taking Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription' I have much better health, and now I have a fine healthy baby."
